Class Level Descriptions

COURSE DESCRIPTIONS

Fundamental Level

Fundamental

Level

New to the Aesthetic Industry.

Aesthetic injections performed: 0-20 patients

Fundamental Neuromodulators and Dermal Fillers:

Eight-hour hands-on course. Includes upper face neuromodulators and dermal filler instruction to the lower face and lips. Includes a Training and Reference Manual.

Artistry of Facial Design:

A four-hour didactic-only art course focused on redesigning the human face using non-surgical, aesthetic applications of neuromodulators, dermal fillers, and pharmaceutical skin care. Discussion of cultural beauty, facial harmony, facial thirds and facial fifths, symmetry, and facial topography. A comprehensive plan for designing your patient's face. Includes a Training and Reference Manual.

Intermediate **Level**

Some working knowledge of facial anatomy, moderate experience with aesthetic injections. Currently performing upper face neuromodulators and lower face dermal fillers.

Aesthetic injections performed: 20-300 patients

Intermediate Level

Advanced Neuromodulators and Dermal Fillers:

Eight-hour hands-on course tailored to your specific needs. Includes upper/lower face and neck neuromodulators; fillers to tear troughs; cheeks, lips, ears, and hands. Includes an introduction to ArqueDerma™ methodology, but does not include full ArqueDerma™ licensee material. Includes a Training and Reference Manual.

Artistry of Facial Design:

A four-hour didactic-only art course focused on redesigning the human face using non-surgical, aesthetic applications of neuromodulators, dermal fillers, and pharmaceutical skin care. Discussion of cultural beauty, facial harmony, facial thirds and facial fifths, symmetry, and facial topography. A comprehensive plan for designing your patient's face. Includes a Training and Reference Manual.

Using Neuromodulators to Enhance your Facial Expression:

A four-hour didactic course that explores the use of current FDA neuromodulators to enhance, not obliterate, facial expression. Learn how to precisely target muscles of the upper and lower face and neck to enhance the patient's ultimate beauty. Includes a Training and Reference Manual.

InjectAbility Institute™ for Esthetic Education

Advanced Level

Veteran in the aesthetic industry!
Pre-requisite courses: At least one Fundamental or Intermediate course with InjectAbility Institute™ or with a similar training company.

Aesthetic injections performed:
300+ patients

Advanced Level

Advanced Neuromodulators and Dermal Fillers:

Eight-hour, hands-on course tailored to your specific needs. Includes upper, lower face, and neck Neuromodulators, Fillers to tear troughs, cheeks, lips, ears, and hands. Includes an introduction to ArqueDerma™ methodology but does not include full ArqueDerma™ licensee material. Includes a Training and Reference Manual.

Artistry of Facial Design:

A four-hour didactic-only art course focused on redesigning the human face using non-surgical, aesthetic applications of neuromodulators, dermal fillers, and pharmaceutical skin care. Discussion of cultural beauty, facial harmony, facial thirds and facial fifths, symmetry, and facial topography. A comprehensive plan for designing your patient's face. Includes a Training and Reference Manual.

Using Neuromodulators to Enhance your Facial Expression:

Four-hour didactic course that explores the use of current FDA neuromodulators to enhance, not obliterate facial expression. Learn how to precisely target muscles of the upper and lower face and neck to enhance the patient's ultimate beauty. Includes a Training and Reference Manual.

ArqueDerma™ Artistic Restoration Lift™:

This unparalleled course will teach you how to provide natural, yet more dramatic results not achievable using conventional filler techniques. Unlike conventional volume replacement techniques, the ArqueDerma™ technique utilizes dermal fillers as strategic relocation vectors to redistribute and direct tissue toward the facial hollows that have formed. This technique utilizes 40% less filler to achieve unprecedented, longer lasting results (up to six months longer than conventional methods of filling). Includes a Training and Reference Manual.

Master Level

Artistry of Facial Design:

A four-hour didactic-only art course focused on redesigning the human face using non-surgical, aesthetic applications of neuromodulators, dermal fillers, and pharmaceutical skin care. Discussion of cultural beauty, facial harmony, facial thirds and facial fifths, symmetry, and facial topography. A comprehensive plan for designing your patient's face. Includes a Training and Reference Manual.

ArqueDerma™ Artistic Restoration Lift™:

This unparalleled course will teach you how to provide natural, yet more dramatic results not achievable using conventional filler techniques. Unlike conventional volume replacement techniques, The ArqueDerma™ technique utilizes dermal fillers as strategic relocation vectors to redistribute and direct your own tissue toward the facial hollows that have formed, ultimately lifting the face and jowls. This technique utilizes 40% less filler to achieve unprecedented, longer lasting results (up to six months longer than conventional methods of filling). Includes a Training and Reference Manual.

ArqueDerma™ Artistic Restoration Lift™ Precepting:

Follow up to the ArqueDerma™ Lift course that will solidify your technique and give you the confidence to embrace our new lifting concepts. May be done at your office or ours. Cost varies depending on location, number, and length of sessions.

Master Level

For the advanced level aesthetic practitioner who is interested in continuing their aesthetic education, stimulating their viewpoint and developing a deeper understanding of the possibilities of non-surgical aesthetics. All classes are cutting-edge and include focus on the artistry aspect of facial design.

Aesthetic injections performed:
Countless patients
